

DCSE's Prop 1 B GIS Solution will help Cities integrate their Pavements Conditions with GIS and identify the prioritization of improvement work

“reducing local traffic congestion and further deterioration, improving traffic flows, or increasing traffic safety that may include, but not be limited to, street and highway pavement maintenance, rehabilitation, installation, construction and reconstruction of necessary associated facilities such as drainage and traffic control devices, or the maintenance, rehabilitation, installation, construction and reconstruction of facilities that expand ridership on transit systems, safety projects to reduce fatalities”

■ Excerpt from Proposition 1B

- Identify Street Segments that need attention
- Attribute the street conditions in GIS
- Analyze and estimate the effort and resources needed
- Prioritize and Plan reconstruction effort
- Manage Accident log
- Capture Traffic signals

Sustain Growth with DCSE !
